

2020 Concrete Dialogue

A Green Deal for European Cities

How can cities lead the way to a sustainable built environment?

17 March 2020 | 12.30- 14.30 | European Parliament, Brussels
hosted by Tomislav Sokol MEP

Dear Colleague,

The Concrete Initiative and The Parliament Magazine are delighted to invite you to the '2020 Concrete Dialogue: A Green Deal for European Cities – *How can cities lead the way to a sustainable built environment?*'.

During a lunchtime discussion, European Commission Representatives Fulvia Raffaelli (DG GROW) and Josefina Lindblom (DG ENVI) will present the newly adopted EU Circular Action Plan 2.0 and specifically the measures targeting the construction sector.

In addition, you will hear from spokespeople from the cities of Brussels and Oslo about their respective efforts to create a greener built environment.

A Q&A session will follow, allowing for a wider discussion of the **EU's policy contribution to the sustainable** built environment strategies being implemented in cities across Europe.

The policy debate, kindly hosted by Tomislav Sokol MEP, will take place on Tuesday 17 March 2020, from 12.30- 14.30 in the European Parliament.

To register your attendance, contact Diane Rolland at events@theparliamentmagazine.eu

We look forward to welcoming you.

Yours sincerely,

The Parliament Magazine | events@theparliamentmagazine.eu
